

# Stained Glass

## Info Sheet

Thank you for your interest in our Stained Glass service.

As you can see from our brochure, our Stained Glass is both a unique and varied art. Please use the following images as a guide to the commissioning process, to help you choose the right effects and styles for you.

As different styles and effects may involve different glass treatments, this brochure also serves as a guide to pricing. Pricing is ultimately determined by both size and complexity, as the larger or more complicated a project is, the longer it will take to make.

Please take the time to look through the images presented here. The numbered paragraphs below relate to the images in the brochure, giving you more information about each piece.

## 1. Roundel Windows

### The ultimate in light interactive Stained Glass

'Roundels' or 'Crown Glass', are hand spun circles, made by our specialist team of in-house glass blowers. These uniquely manufactured pieces are bespoke pieces of art in their own right, and are spun and coloured to order. The light they distort and project has an un-paralleled effect.

Once you have decided on your colour scheme, our stained glass artists will put together a proposed design for you. Due to the bulbous nature of roundels, there is an element of improvisation needed for leading them together, and as such the artwork is created to give you an impression of the finished window, rather than a perfect interpretation.

Stained Glass Roundel windows typically start at around £2000 per square meter. Roundels can also be included in other stained glass designs as add-ons. These cost £20 - £85 each, depending on size, and can look great as a centre piece in a window.

## 2. Contemporary Style

### Modern classics inspired by nature

This example uses a design inspired by 'modern ambiguous imagery', and reflects the lines of nature in its surroundings. These simple yet elegant windows use traditional lead and mouth blown glass. The ambiguous nature of these designs allows the viewer to engage with the window as the weather and lighting condition changes through the day.

Fanlights panels £350-£1500 depending on size

We recommend framing all medium and large Stained Glass mirrors for presentation, protection and support. We work closely with 'The Framing Workshop', a local framing company, and recommend a gun barrel grey coloured aluminium frame as it is the same colour as lead and is lighter and stronger than wooden options.
